

The Law Enforcement Survival Institute

Saving the lives of the people who save lives!

How Resilient Are Your People?

Let us do some simple assessment and training to see!

The Law Enforcement Survival Institute (LESI) is an assessment, consulting and training organization. We work with law-enforcement professionals and other first responders and their organizations who want to be at their best. Our focus is wellness and resilience. The Law Enforcement Survival Institute is supported by subject matter experts on a variety of topics around the areas of wellness, resilience, human performance and improving organizational culture. About law enforcement we believe:

“If we don't take care of our people, they won't be able to take care of THE PEOPLE!”

For as little as \$25 per person we can conduct assessments and start a basic Resilience Training Program

Or take us for a test drive by choosing 25% of your employees to start a Resilience Pilot Project!

We have been working for over 12 years to build resilient first responders and have accumulated massive amounts of knowledge and information about what works and what doesn't.

We support the health and resilience of people and organizations in the areas that:

- Create and Maintain Individual & Family Wellness and Resilience
- Cultivate a Positive Organizational Culture of Wellness
- Build the Necessary Wellness Support Systems
- Promote Wellness Leadership
- Foster Trust and Positive Community Relationships

We also believe that wellness and resilience are symbiotic systems made up of several critical parts that must work in tandem in order for the whole to be effective.

The Services That We Offer Can Include:

- We offer In-Person, Virtual, Pre-Recorded or Blended Training
- Individual, Organizational and Community Assessments
- Consulting to Determine or Support Existing Wellness or Resilience Initiatives
- Executive Coaching to Support Wellness Leadership
- Consulting and Training that Promote Trust and Positive Community Interactions

In place of more expensive in-person training we can provide live Zoom training or pre-recorded training, or a combination, that allows the participants to conduct self-paced work within the initiative's overall timeline, and then access group sessions from wherever they are, using the Zoom platform. This also means that everyone has instant online access to the exact same information and training materials whenever they have time, which makes scheduling conflicts due to shiftwork a thing of the past.

For more information please contact us and we would be happy to talk with you about your specific needs and provide you with a price quote for any of our products or services that can help you. Please contact us at:
